

## Newsletter BRF Granatäppet, September 2011

Here is some information from the Board about what is happening in our housing.

### 1. New Port Codes

30 / 9, new door codes to apply. Information for each port will be distributed separately in each apartment postbox.

### 2. Error reporting

Any service request is always made to the board, contact Karin Palmlund, 0766-32 41 30 or [karin.palmlund@telia.com](mailto:karin.palmlund@telia.com). For service request, it is important to state what is wrong and where and your contact information. Normally all notifications to the respective supplier and also their actions during business hours. In case of fire or other direct danger is of course 112 will apply.

### 3. Bike Rooms

A working group consisting of Mattias Söderlund, Lisa Bengtsson and Carolina Johansson has been formed. The task is to review the bicycle / pram room and see how we can optimize space and better order. Do you have any thoughts or suggestions, please email [mattias.soderlund@webaid.se](mailto:mattias.soderlund@webaid.se)

### 4. Garbage and Recycling

We have this summer had a problem with the vacation of Journal of the reservoir. Following dialogue with the contractor, Sita, we now hope that it will work in future. The reservoir should be emptied every two weeks.

We have recently increased the capacity of sorting through large containers and more frequent emptying. Recalls, however, always to put containers in the receptacles, and never on the lids or the ground. It is also important to fold / compress paper packets before they are placed in arteries. In addition to hard plastics can be for some time also add soft plastic and Styrofoam containers, plastic containers. Emptying frequency is now every two weeks on everything but paper packaging that is emptied every week. Are the vessels full you have to wait until they are emptied. There are also public recycling containers behind Mulle Meck and at commuter train station.

Bulky waste does not belong in the sorting, but only packaging as markup. Bulky waste is thrown on the AVC, which is the closest remaining litter (E18 towards Enköping, right in Rissne Cross before SEB-house). Hours are posted to the right of the door to the sorting.

### 5. Cleaning day

Autumn cleaning day is scheduled for 22/10, more info is posted on [www.granatapplet.se](http://www.granatapplet.se) and in ports. Do you have suggestions on what to do, contact [lars.esping@hotmail.se](mailto:lars.esping@hotmail.se)

### 6. Stair houses

The stairwell is not a place for storage of objects, it is our only escape in case of fire. No bicycles, baby carriages, plants, garbage, boxes, etc. may be stored there.

Yours sincerely

Board BRF Granatäppet
